CRUNCH

DO YOU DELIVER? **Real Crisp** do.

Home delivery is growing rapidly - and in these troubled times, you may have turned to home delivery to keep your business running. But there's a challenge...

Your customers expect their food to arrive as fresh as when it leaves your kitchen. Thermal insulated delivery bags do a great job of keeping your food hot in transit, but fries do not usually travel well - ending up soggy, cold, limp and unappetising.

**Real Crisp** have a crunchy coating that ensures the fries stay crispy and hot for longer after cooking - making them the perfect solution for home delivery. They are made using the finest AA-grade potatoes, and prepared using only sunflower oil, which guarantees superior flavour.

At a fraction of the cost of the market leading brand, you can solve the problem of soggy fries, increase your customer satisfaction and boost your profit margin by switching to **Real Crisp** today.
